Subject: FW: Haskell Lake Petroleum Contamination Problem

Hi Gary: attached is the most recent note I received from Lac du Flambeau. Thanks for taking the time to discuss with me, and don't hesitate to let me know if I can be of any assistance.

thanks.....Darrel

Subject: Haskell Lake Petroleum Contamination Problem

Good Afternoon Darrel,

Thank you for meeting with Larry, Dee and me last Wednesday. We expressed serious concerns about the Haskell Lake area petroleum contamination that the Tribe reported to EPA in 2011.

From your meeting, we understand that an EPA response letter is coming from Ms. Margaret Guerriero. Although we have not yet received the letter, we did have recent discussions with EPA and WDNR.

EPA LUST staff, Bob Egan, contacted me on Monday to discuss planned February private well sampling. Because the wells nearest the site are seasonal and unavailable in February, we agreed to wait until spring/summer. Bob also said that Sherry and Gary held a call with State DNR folks on Friday January 27th.

WDNR staff Greer Lundquist contacted the Tribe to arrange a conference call with WDNR staff John Robinson. We were told the WDNR is in the initial phases of putting together a reopen package for consideration by DNR leadership. We have requested an agenda for this call. We will coordinate any call with EPA to make sure appropriate staff are present.
